

September 30, 2016

Dear Parents and Guardians,

Pursuant to **N.J.S.A. 18A:7C-6.6**, beginning in the fall of 2016, school districts must, by October 1st, provide parents or guardians certain information on any state assessment or commercially-developed standardized assessment that will be administered in the school district.

Specifically, we are required to share the following:

- A. The subject area of the assessment and grade levels covered by the assessment;
- B. The date or range of potential dates for the administration of the assessment;
- C. The time allotted for the student to take and complete the assessment;
- D. Any accommodations or accessibility options available to students;
- E. Information on how and when the student and his/her parent or guardian can access both sample questions and answers to the assessment and the student's results; and
- F. Whether the assessment is required by the State or federal government, or both.

In response to this new requirement, the administration developed a table to aid parents with understanding the district assessment program. Please find attached a table which provides parents and guardians with all required standardized testing information. Note that the district offers a full range of testing accommodations as required by law.

For high school students, requirements for standardized testing change depending on year of graduation. You will also find a document which details how high school requirements change over time.

Should you have any questions, please feel free to contact me at (973) 633-3032.

Sincerely,

Mark Toback, Ed.D.
Superintendent of Schools

Wayne

Township Public Schools
